[jatinkher100@gmail.com](mailto:jatinkher100@gmail.com) | [LinkedIn](#) | [Github](#)

Full Stack Developer specializing in MERN stack development with expertise in building scalable web applications, implementing RESTful APIs, and creating responsive user interfaces. Experienced in database design, user authentication systems, and modern JavaScript frameworks.

## EDUCATION

---

### CHANDIGARH ENGINEERING COLLEGE

Bachelor of Technology (Information Technology)

Cumulative CGPA: 7.5/10.0

Relevant Coursework: Web development ,Operating Systems; Algorithms; Data Structure; DBMS;

Mohali, Punjab

May 2025

### KHALSA PUBLIC SCHOOL

Intermediate

Cumulative CGPA: 6.8/10.0

Saharanpur , Uttar Pradesh

Jul 2021

## WORK EXPERIENCE

---

### AGI Innovations Makes360 Private Limited

MERN Stack Intern

Developed and deployed full-stack web applications using MERN stack, implementing RESTful APIs for seamless front-end and back-end integration. Built responsive User Interfaces with React.js and managed database operations with MongoDB. .

Mohali, Punjab

Jan 2025 - May 2025

## SKILLS

---

### Technical Skills:

**Full Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js), RESTful API Development

**Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Design

**Backend & Database:** Node.js, Express.js, MongoDB, MySQL, JWT Authentication

**Programming Languages:** Java, C++, C

**Tools & Integration:** Google Maps API, Git, Version Control

**Soft Skills:** Leadership; Effective team collaboration; Strong analytical and problem-solving abilities;

## PROJECTS

---

### Real Estate Web Application

March 2025 - May 2025

- Engineered a comprehensive real estate web application using **MERN** stack, implementing **JWT-based user authentication**, dynamic property listings, and end-to-end booking functionality with **RESTful API** architecture.
- Designed responsive UI components using **React.js** and **Tailwind CSS**, integrated **MongoDB** for efficient data management, and optimized user experience across multiple devices and browsers.

### UBER Clone

Present

- Building a production-ready Uber Clone web application using **MERN** stack, featuring **real-time** ride booking system, JWT-based user authentication, and role-based dashboards for enhanced user experience.
- Implemented RESTful APIs for ride management, integrated **Google Maps API** for location services, and architected secure **MongoDB database** schema for scalable data handling and user management.

## ACTIVITIES AND CERTIFICATIONS

---

- Completed "Java from Zero to First Job" (Udemy).
- Winner of Stumble Guys Inter College Competition.
- Got certificate for online completing Wireless Ad hoc and Sensor networks from IIT kharagpur
